

Responding to Aggressive Behavior

This module highlights how perceptions influence responses to aggressive behavior. Learners explore different characteristics of children who use aggression and the underlying influences on aggressive behavior. A course of action for responding to aggressive behavior is presented, with an in-depth focus on how to develop environmental supports.

Learning Objectives:

1. Discuss a scenario using different lenses for interpreting and responding to behavior
2. Design or improve upon 2 environmental supports for children in your program to help them feel safe and connected
